REAL ESTATE TAXES

Commissioner Spidalieri expressed that he has received several phone calls from residents regarding their property taxes that they just received that had an almost 14% increase that was about \$3,000.00 that they never had any notification of and wanted to know what we are doing about this. Ms. McMahan explained that they were putting a release via the newspaper, on Facebook, and the website on how to appeal via Board of Revision. Mr. Spidalieri stated that people have been out of work, unemployment benefits have run out and residents are struggling, and wants to know what they can do to extend this out, adding the Board of Revision will never be able to hear all of these cases. Mr. Spidalieri expressed appraisals being done in a year with hardship, and raise taxes on people, that it's irresponsible, understanding that they have laws to follow, but it's difficult to listen to residents calling about the increases in their taxes. Ms. McMahan stated she will take it back to Mr. Walder, that he is aware, having talked to several residents himself along with talking to Mr. Hitchcock. Mr. Spidalieri asked for humanity on this. Commissioner Dvorak mentioned the idea of a 90-180-day extension on the increase to give people time, but that it would have to come from the state.

DISCUSSION ITEMS

Mr. Morgan explained that they had received a letter from Mr. Funk the Attorney representing Judge Grendell in the case with the Auditor's Office explaining that the mediation did not work and that the Supreme Court needs to make the decision on this. Mr. Funk expects that with it going to the Supreme Court he will need an increase from the current \$20,000.00 cap of another \$10,000.00. Commissioner Spidalieri inquired about the total amount of the fight, to which it was noted the amount was around \$25,000.00. Mr. Spidalieri stated that he would not make a motion and not vote on this, spending more money on Attorney's than the cost of the bills, someone needs to put their big pants on and figure out what they are doing. Mr. Morgan was going to do some additional research and will come back to the Board.

The other item is in regards to the City of Akron announcing they were considering doing fracking on their properties around LaDue Reservoir. Mr. Morgan stated that the City of Akron purchased property to protect their water system and they are going to do something that could potentially harm the thing they want to protect. Mr. Dvorak inquired about the property they would lease for this could it then be taxed because they are receiving funds for the lease. Mr. Lennon expressed that based on what he had looked into that this was under discussion on the idea, and they have done logging in the past, and different revenue projects and if that is the case they need to put the property back as taxable. Mr. Dvorak noted that the City of Akron owns 27% of the property in Troy and 23% of the property in Burton. Mr. Morgan then asked the Board if they wanted him to draft a letter expressing the Board's concern over this intent and that they should consider putting the properties back onto the tax rolls. Mr. Lennon stated that he was asked if the Commissioners' Office could stop the fracking, and Mr. Morgan expressed that based on what has been done in the past the Commissioners don't have the control to stop them, it's State and Federal.
