RECORDER'S OFFICE – DOCUMENT STANDARDIZATION

County Recorder Sharon Gingerich updated the Board on the new document standardization guidelines for the Recorders Office that will become effective July 1, 2009. Ms. Gingerich reported this is the second big change since she has been in office. Margins cannot be stamped in or written in by the title companies any longer. In April it was changed that you cannot look at Veterans discharge papers anymore, only with a few exceptions such as being an heir. Ms. Gingerich added that this office has been very lucky as Margie McBride (former County Recorder) kept these records separate and behind the counter. Other recorder offices have to pull these records from all the books and replace with a blank page. The standardization is basically common sense- 3" margins are needed at the top of the document for engineer, auditor and recorder stamps, this is standard across the state. Color for reproducing has to be black or blue as red does not scan well, highlighting comes out black and full sheets of paper are to be submitted rather than half sheets. There is a twenty dollar fee for each document that is not standardized. Commissioner Jemison questioned why they would even charge the fee and just not accept the document. Ms. Gingerich agreed but added that the theory is if they are charged the fee they will not continue to not comply with the new guidelines. Ms. Gingerich has been handing out flyers stating the new guidelines. Ms. Gingerich added that she does not have the discretion to not charge the fee, she can only send back the inappropriate documents. The Ohio Housing Trust Fund gets half of the fee. Ms. Gingerich added that she is conducting an experiment for the month of July by staying open until 5:30 p.m. Jared Spring will work four day weeks (ten hour days) and Celesta Mullins will cover the day he is off and come in later in the morning a couple of days. They will not accept documents; this is strictly for people doing research. On July 31st they will be celebrating the 214th Anniversary of the Office of the County

Recorder. Ms. Gingerich mentioned that she is checking out e-recording and added that only 20 states do not accept e-recording.

OFFICE OF COMMUNITY AND ECONOMIC DEVELOPMENT – RESOLUTION AND SUBMITTAL AUTHORIZATION FORM TO APPLY FOR, ACCEPT AND ENTER INTO WATER POLLUTION CONTROL LOAN FUND

Program Administrator Joni Stusek reported that poverty level in Geauga County for one person is \$10,400.00, so they are allowed to do up to 200% of poverty level which would be about \$20,000.00. Robert Weisdack, Health Commissioner added that because of Geauga County soil conditions they would have to follow the State guideline which means it would be the expensive sewer system. The state is giving leeway on how to collect the 25% paid by the homeowner by referring to USDA for a program to work with the EPA or they can ask the Auditor to put their balance on their tax duplicate. Community Development, as well as the Health Department, has kept a list of residents whose systems have failed. Ms. Stusek is charged with qualifying the residents and making sure they have their 25%. Currently there are 45 applicants and they are submitting for the grant for \$762,000.00. There is only about \$5 million available in the state and it is still not determined who gets what. These systems have to be in and inspected by November 1, so there is not a lot of time. They are hoping to have a good idea by July 13 of how many people qualify for the program. Commissioner Jemison asked what will happen if they do not receive the full grant request. Ms. Stusek replied that it will be “first come, first served”.

Motion: by Commissioner Jemison, seconded by Commissioner Samide to approve and execute Resolution 09-126 Authorizing Geauga County Health District to Apply for, accept, and Enter into a Water Pollution Control Loan Fund Agreement on behalf of Geauga County for the Repair and / or Replacement of Home Sewage Treatment Systems for a grant through the American Recovery and Reinvestment Act (ARRA) of 2009 to repair or replace home sewage treatment systems for Geauga County families that are below 200 % of the poverty level according to Health and Human Services. This grant provides for 75% of the cost of a new system, with residents providing the 25% balance.
