*Mr. Stone reported that the reason for the public hearing is to meet federal environmental requirements since they have federal dollars involved in these projects. Federal requirements also require that they clear the right of way from of all encroachments. Section C from Caves to Route 306 was improved with federal dollars in 1977-78 and has wider paved shoulders per federal requirements. The roads have 8 inches of aggregate so a final change was made to the plans as this is starting to deteriorate so it will be paved. ODOT has approved of this change. The only other change made to the plans is that this project is 100% stimulus dollars. They were notified yesterday that a required sign must be placed at each end of the project stating that this is being done with federal stimulus dollars. Mr. Stone added that this project is a straight resurfacing project. The surface will be milled first and put back a minor leveling course. Mr. Stone reported that this project was already targeted for a NOACA 80/20 project. Commissioner Jemison asked if the department will do other jobs now that they didn't have the money for now that they have received the stimulus money. Mr. Stone responded that it will allow that to happen. Mr. Stone added that he submitted other projects and some are on tier II. There are some counties that have projects on tier I but will not be able to meet the timeline. This may benefit those on tier II who have ready to go projects, which would be a bonus as they may turn into 100% projects.*

*Being no comments from the public Commissioner Young closed the hearing at 10:20 a.m.*

*COMMISSIONERS' OFFICE – WILSON MILLS ROAD , SECTION D-F - PUBLIC HEARING*

*Commissioner Young opened the Pubic Hearing on the Improvement of Wilson Mills Road (CH 8, Sections D-F) Project in Chester Township in Chester Township at 10:20 a.m. Commissioner Young thanked Ms. Kozenko for being efficient and saving the county money by putting the notices for all these public hearings on one advertisement.*

*Mr. Stone reported this hearing is held for the same reason which is to meet federal environment requirements. This project is from Wilson Mills to Heath Road to the Munson line. There is a curve on this road so there will be more grinding. A two inch intermediate course will be put on and on the curve section they will use special fine grade polymer asphalt. They have tried to fix the area before by grinding and by putting on a micro surfacing. The polymer has not been used*

before but they are trying something different as there has been a problem with the road being slippery. Mr. Stone added that they will use this product on the entire section.

Being no comments from the public Commissioner Young closed the hearing at 10:25 a.m.

COMMISSIONERS' OFFICE – RECEIPT OF PLANS FOR IMPROVEMENT OF WASHINGTON STREET - PUBLIC HEARING

Commissioner Young opened the Public Hearing on Receipt of Plans for The Improvement of Washington Street (CH 606) Project in Bainbridge Township at 10:25 a.m. The hearing was advertised in the same combined advertisement.

*Motion:* by Commissioner Jemison, seconded by Commissioner Samide waive the reading of the advertisement of the public hearing.

Mr. Stone explained that this is from Washington Street to the county line. There is a cooperative agreement with South Russell Village who will be the beneficiaries of 100% funding on this project. This road will require quite a bit of milling as there are curves on this section. They will put back a surface of ¾" leveling and a top surface. Mr. Stone added that all three of these projects will be done under traffic.

Being no comments from the public Commissioner Young closed the hearing at 10:31 a.m.

COMMISSIONERS' OFFICE – IMPROVEMENT OF COUNTY ROADS BY INSTALLING GUARDRAILS PUBLIC HEARING

Commissioner Young opened the Public Hearing on The Improvement of Various Sections of County Roads by Installing and /or Replacing Guardrails per Resolution #09-005 approved January 12, 2009, at 10:31 a.m.

*Motion:* by Commissioner Jemison, seconded by Commissioner Samide waive the reading of the advertisement of the public hearing.

	<i>Commissioner Samide</i>	<i>Aye</i>
	<i>Commissioner Young</i>	<i>Aye</i>

Mr. Stone reported that this project has different funding, it is safety funding that is administered by the County Engineer's Association. They allow up to \$300,000.00 to be submitted which is what the department has requested. There are 33 different locations identified with the current estimate of \$390,000.00. This count is based upon the department's own guardrail inventories and will put the county in total compliance. Commissioner Jemison mentioned the guardrails at the old Sheriff's building site (that could be re-used for highway projects) and that the area needs some attention. There are still some bridges, especially along township roads, that may be followed up in future years to make use of the 100% monies.

Being no comments from the public Commissioner Young closed the hearing at 10:36 a.m.

COUNTY ENGINEERS' OFFICE – WILSON MILLS ROAD IMPROVEMENT- SECTIONS A-C RESOLUTION AND TITLE SHEET

Mr. Stone commented that usually the department waits to do the resolution after a hearing but they are trying to move the stimulus projects and there were no objections.

*Motion:* by Commissioner Jemison, seconded by Commissioner Samide to approve and execute Resolution 09-053 to Order the Improvement of Wilson Mills Road (Ch 8, Sections A-C) in Chester Township, and to further approve and execute the title sheet of the specifications for the same.
