**COMMISSIONERS' OFFICE – RESOLUTION SUPPORTING SENATOR GRENDELL'S BILL –
NORTHEAST OHIO GAS ACCOUNTABILITY PROJECT (NEOGAP) – SIX STEPS TO PUBLIC
SAFETY AND DECLARING AN EMERGENCY**

Motion: by Commissioner Jemison, seconded by Commissioner Samide to approve and execute Resolution 09-189 Supporting Senator Grendell's Bill, Northeast Ohio Gas Accountability Project's (NEOGAP) Six Steps to Public Safety, and Declaring an Emergency.

Board of County Commissioners, Geauga County, Ohio

Date: October 15, 2009
Resolution: 09-189

**RESOLUTION SUPPORTING SENATOR GRENDELL'S BILL,
NORTHEAST OHIO GAS ACCOUNTABILITY PROJECT'S (NEOGAP) SIX STEPS
TO PUBLIC SAFETY, AND DECLARING AN EMERGENCY**

WHEREAS, in 2004, the enactment of H.B. 278, the Ohio General Assembly stripped away local governmental authority for regulating and permitting oil and gas wells; and

WHEREAS, as a result, wells are placed in close proximity to homes, schools, daycare centers and other similar sensitive locations despite numerous accidents and opposition from communities; and

WHEREAS, support NEOGAP's Six Steps to Public Safety will implement commonsense legislation and regulation similar to that of other oil and gas producing states to protect public health and safety; and

NOW THEREFORE, BE IT RESOLVED the Geauga County Board of Commissioners:

SECTION 1. That the Geauga County Board of Commissioners hereby supports the proposed Senator Grendell's Bill, Northeast Ohio Gas Accountability Project's (NEOGAP) Six Steps to Public Safety:

- 1. Restore Local Control. Require gas and oil well permits to be approved by local governments after holding public hearings. Replace the current system of State-mandated permitting.*
- 2. Remove Mandatory Pooling. Change current law that allows private companies to take over your property and mineral rights by force without your permission or fair compensation.*
- 3. Increase Safety Setbacks. Require minimum distances between homes, schools, parks and other public gathering places; and, gas / oil wells to be increased from the current 100 feet to 3,000 feet. Explosions typically send debris 400 feet way, and toxic air and liquid blowouts can travel up 3,000 feet. Also, protect our water supply by increasing the distance between gas/oil wells and water sources to 1,000 feet.*
- 4. Protect Our Environment. Ban on-site burial of hazardous wastes, toxic chemicals, and potentially radioactive material. Require waste tanks to be utilized at well sites ("closed loop, pit-less systems") instead of the open waste pits currently permitted. Conduct air and water testing and monitoring by an independent third party at the expense of the gas company. This includes, but is not limited to, hydrogen sulfide and radon monitoring, and pre- and post-water quality and quantity testing within a 3,000 foot radius of the oil/gas well.*
- 5. Demand Disclosure and Accountability. Require the State to publicize: new applications for permits, permits issued; have companies disclose any hazardous chemicals which could be present on-site; and post all orders issued by the State to residents within a 3,000 foot radius of a (potential) well site.*
- 6. Require Financial and Legal Accountability. Require insurance in excess of five million dollars to ensure financial accountability for injuries to people's health, and ten million for damages to private property and to the environment. Reform the current ineffective Oil & Gas Commission, which is stacked with industry insiders. Give the State real power to enforce health, safety, and zoning laws and regulations.*

SECTION 2. This Board finds and determines that all formal actions of this Board concerning and relating to the passage of this Resolution were taken in an open meeting and that all deliberations of this
