Commissioner Spidalieri opened the Public Hearing at 10:31 a.m. and Director Mike Kasper explained that there have some changes this year to how grants are applied for at that State, noting that the application procedure has changed two requiring two grants be applied for, including a 5311 rural transit grant that does not include capitalized items like construction projects and vehicles. Mr. Kasper stated that the revenue funding includes a Federal Operating grant in the amount of \$588,674.00, State Operating grant in the amount of \$153,995.00 and State E & D grant in the amount of \$59,121.00. Mr. Kasper explained that being new to this process they reviewed the budget numbers from 2009 through 2013 and took the average year and based the numbers for this grant on those numbers. Mr. Kasper briefly went over some of the numbers that make up the revenues and expenses through the year in the amount of \$1,499,797.00. Mr. Kasper explained that he will be reviewing these numbers monthly to make sure that they are staying on track. Mr. Kasper explained that this year there is a separate grant for vehicles, noting that there are requirements that those vehicles be six years old and have 150,000.00 miles on them before they can be replaced. Mr. Kasper stated that at time they have 17 or 18 vehicles in the fleet and have been told that we should have 16 revenue vehicles available in the fleet based on use. Next year we are asking for two vehicles for a total of \$191,074.00, noting that they will probably cost around \$165,000.00 and they are changing from diesel to gasoline due to changes in technology and cost of fuel. Commissioner Samide inquired if diesels are longer lasting than gasoline, to which Mr. Kasper stated that with technology today they are comparable and are going to try and save \$28,000.00 by going with the gasoline. Commissioner Rear asked what the miles per gallon on the vehicles, to which Mr. Kasper stated that they average around 10 -11, and inquired if next year he would separate out the mpg between the diesel and gasoline for comparison. Mr. Kasper explained that he had spoken with their mechanic and agrees that they need to send the new gasoline vehicles on various routes to make sure it's a fair comparison in the work load. Local resident Walter Claypool inquired about the length of the grant, to which Mr. Kasper stated that it is annual, clarifying that the last time a public hearing was held as a requirement was back in 2009, noting that going forward they will be required to file for the separate grants. Being no further questions or comments the Public Hearing was closed at 10:45 a.m.

GROUP RETROSPECTIVE RATING PRESENTATION

Client Services Manager Bobbijo Werren from CompManagement, Incorporated gave an update regarding the Executive Summary Report for Workers' Compensation and the Group Retrospective Rating for Geauga County. Ms. Werren explained that they like to update Workers' Compensation data because the numbers change every year. Ms. Werren stated that the state is giving a 60% rebate on premiums paid in calendar year 2013 that will come back to the County in the fall, this could be as early as October, which is separate from the lawsuit that was filed by northeast Ohio employers that sued the bureau, noting that the lawsuit did not

Commissioners' Journal

include public employers. Ms. Werren presented an executive summary to the Board that reflects ongoing efforts as it relates to safety and accident prevention. Ms. Werren noted that claim frequency is down 9% comparing 2011 to 2013, and overall claims cost is down 20.5% comparing 2011 to 2014 rates and includes a 29% reduction in premium that corresponds with that, and a 15% reduction in the base rate across the state. Ms. Werren stated that Geauga participates in Group Retrospective Rating and the savings from that program from 2010 to 2012 have exceeded \$450,000.00, noting that this new program in Ohio that began in 2010 has clearly been a homerun for Geauga County. Ms. Werren stated that while it is a deferred program the savings have been substantial and it is working in Geauga County. Ms. Werren explained that a program called handicap reimbursement is a provision to encourage employers to hire employees with known and unknown handicap conditions and in order to qualify the cost relief injured employees have to have one of twenty-six recognized conditions and then CompManagement, as the third party administrator works to prove that the condition prolonged or delayed the recovery in the claim against the county and that the costs were increased. Ms. Werren pointed out that the efforts have saved over an additional \$123,000.00. This program does not have any impact to the employee. Ms. Samide roughly figured that Workers' Compensation comprises about 2% of the budget, looking at the aggregate money spent and the money spent on the program. Ms. Werren expressed that workers' compensation is much higher than 2% in other counties.

Ms. Werren stated that continued participation in Group Retrospective Rating is something that is required every year and presented additional information to the Board explaining the Bureau is changing to a prospective billing process next year, and in order to change they are providing a transition credit, noting that in 2016 you will be paying for 2 years, but only paying for 50% of 2015 and 2016. Ms. Werren noted that the rating participations show that there are concurrent surveys being done in a year, and that in 2015 which would be the injury year, you will extend your exposure through continued group retro participation but that you have saved over \$450,000.00, citing that it has the least amount of risk with the highest rate of savings. Ms. Werren stated that CCAO has increased the level of risk from 10% to 15% which the greater the risk the greater the refund and will target an estimate of a 40% refund.

Human Resources Specialist Kathy Hostutler explained the 2015 healthcare renewal rate, stating that for 2015 the County received a renewal rate of 6.9%, adding that the County has been in single digit renewals since 2010. Ms. Hostutler stated that this includes the automatic 1.5 % increase from the Affordable Care Act and the prescription rebates. Ms. Hostutler stated that the 1.5% increase regarding prescriptions has put a maximum cap on their out of pocket cost on prescriptions. Ms. Hostutler explained that CEBCO requested we increase the out of pocket maximum on the enhanced plan from \$1600/\$3200 to \$2000/\$4000 in network to be more in line with other counties. The basic plan increased from \$3000/\$6000 to \$3750/7500. These are not deductibles they are out of pocket maximums. Ms. Hostutler asked that the employee contribution rates remain the same. There are no changes in the dental and the Board was asked to keep the waiver rates the same. Commissioner Spidalieri inquired about the cap on the prescriptions, to which Ms. Hostutler stated that it is \$2,500.00 in a calendar year.

DEPARTMENT OF WATER RESOURCES – ADVERTISE FOR INTENT TO REQUEST PROPOSALS / QUALIFICATIONS – INSTALLATION OF ENERGY CONSERVATION MEASURES – MCFARLAND MEMBRANE IMPROVEMENTS

Director Doug Bowen and Sanitary Engineer Gerald Morgan explained that they have been working through the process of replacing the membranes, noting that they had been approached with the process of going through an energy saving procedure. Mr. Bowen explained that they would go out for RFP and choose someone to be a contractor, who then analyzes the membrane manufacturer and guarantee a savings per year, and if the county does not meet that the guarantee they will give us the difference and then solve any issues to meet that savings guarantee. Mr. Bowen stated that at the end of the process we can still choose to reject them all and go out to bid through the normal process. Mr. Morgan explained that the consultant brings several companies that provide what is proposed and work with Water Resources to choose the supplier that they would choose for the project. Mr. Bowen expressed that if they back out of the process the only cost lost would be engineering fees that have been spent to date. Mr. Bowen stated that the consultant will analyze the proposals received and tell us the savings by choosing this company for this and this company for that, noting that it will not just be for the membrane, the blowers, the motors, etcetera, including chemicals, covering all aspects of the project. Mr. Bowen explained that this process is allowed under the ORC but is been mainly used for building electricity, so this will be the first one done for a project of this type. Mr. Morgan stated that the consultants will come in and offer suggestions on how to do things that may make a difference.

DEPARTMENT OF WATER RESOURCES – RESOLUTION PROPOSING TO COOPERATE WITH DIRECTOR OF TRANSPORTATION FOR RELOCATION OF SANITARY FORCE MAIN – BAINBRIDGE TOWNSHIP

Mr. Morgan explained that the force main from Laurel Springs / Bainbrook subdivision that runs north on State Route 306 and discharges into the gravity sewer on Tanglewood is part of the ODOT right of way and part of the agreement with ODOT is that if in the future they do work in that right of way that causes something to be relocated you agree that it is moved or it is moved and you pay the cost of it being moved. ODOT is moving a culvert under 306 so part of the project includes the force main to be relocated and we will cover the cost, if the amounts that they provide are way out there we will look at moving it ourselves.

Motion: by Commissioner Samide, seconded by Commissioner Rear to approve and execute Resolution #14-151 County Commissioners Proposing to cooperate with the Director of Transportation for the Relocation of the County Sanitary Force Main as part of the State improvement to replace a culvert located under Chillicothe Road (SR 306) just north of Beacon Hill Drive in Bainbridge Township.

OTHER – QUESTION OF COMMISSIONER REAR

Local resident Judy Zamlen-Spots asked Commissioner Rear what his position on Retire/Rehire was, to which Mr. Rear responded by stating that it was particular to the circumstance. Mr. Rear explained that he felt succession planning should be in place first and if that is not in place or not possible than the situation would have to be looked at, advertising for the best candidate and if necessary an employee could be considered to be rehired but with concessions regarding benefits, vacation, salary, etcetera being shaved down. Ms. Zamlen-Spots stated that she does not support retire / rehire and that succession planning does not work in Geauga County. Mr. Rear stated that in the County succession planning was in effect but in one case a neighboring county came in dangled a carrot that couldn't be matched and we lost a viable candidate. Mr. Rear stated that is often happens due to larger counties being able to have higher paying wages than what we are able to pay.
