**DEPARTMENT ON AGING – MEDIWARE INFORMATION SERVICES, INCORPORATED  
MASTER LICENSE AND SERVICES AGREEMENT – SAM'S REGISTRATION PROGRAM**

*Director Jessica Boalt explained that they use SAM's software for their Federal grant reporting and need to update the Master License and Service Agreement, and due to going back and forth on the agreement, we are doing both 2016 and 2017. Ms. Boalt stated that it is for the license and support, as this product is a 2009 software program because we have not made the move to the cloud based server. We are still running on a local server, and there is no plan to upgrade right now. This contract is for just under \$4,000.00 for each year. Ms. Boalt noted that she could not comment on any documents that had been handled prior to her arrival, but that this was the first time she had seen any agreement with them for the product. Ms. Boalt added that she wanted to clarify that they were not on the "Cloud", that they were still operating off a local server on the county network. Commissioner Claypool inquired if Do IT had reviewed the contract and if it was captured under the records retention schedule, to which Ms. Boalt noted that it was for terms of service for software, and that the information stored is sensitive and it not a public record.*

*Mr. Lair explained that this is the actual budget of the county, noting that the tax budget is for planning purposes and from that the budget commission comes up with resources that establish the basis of the actual budget. This does not include what will be certified in January once balances are closed out from 2016.*

- Budget Commission certifies the revenues expected to be received for the year, along with the unencumbered fund balance identified at the beginning of the year. Together, revenues + beginning balance = Resources
- County Commissioners appropriate funds to county departments. The total amount of the appropriations by fund cannot exceed the certified amount of resources as determined by the Budget Commission by fund

2017 Revenues	<u>\$27,512,750</u>
Total Resources	\$32,012,750

Mr. Lair noted that the carryover balance is a very conservative estimate, adding that the revenue balance is adjusted due to about \$19,000.00 more for the local government support fund than what was in the tax budget.

2017 Permanent Appropriations  
General Fund Revenue Sources

Ms. Rasic stated that the sales tax is the largest portion of revenue, which is budgeted at \$13 million, and was just certified for 2016 at \$13 million so we are in line with those numbers, the next largest is the real estate tax about \$7.5 million, the rest of the pieces are much smaller, that include the local government revenue and the casino tax. These numbers are specifically for the

general fund and do not include the Park District, the Library, or the Health District. This portion is a small portion of those real estate taxes.

Mr. Lair stated that this is done in early December so that the Auditor can allow departments to get set up and ready to go for the next year. The Supplemental Appropriations will be done in late January of 2017. Those Supplemental Appropriations include restoring the contingency account, departmental requests and potential for an employee salary increase, which it is hoped the Board would consider, to which Mr. Claypool noted that it would be a permanent increase when being considered.

These are the requests by departments that have not yet been funded, explaining that the as yet unfunded requests include the Board of Elections for new software and equipment, Maintenance for contracted services, and Sheriff for additional equipment for the 911 system. There was discussion regarding the expected Medicaid Sales tax reduction, which requires the County to make an adjustment of about \$400,000.00 that is about 3%, fortunately for us, it’s rather low, where other counties have a much larger amount. Mr. Claypool noted that the budget could change at any time based on other changes that could impact our general fund budget, noting Transit systems as an example.

Commissioners – Walter M. Claypool, Ralph Spidalieri, Blake A. Rear

10

*Mr. Lair and Mr. Claypool thanked the Commissioners staff for all of their hard work.*

*Motion: by Commissioner Rear, seconded by Commissioner Claypool to approve and execute Resolution #16-165 (Permanent) Annual Appropriation for 2017\*, in accordance with O.R.C. 5705.38 and 5705.40.*

*\*The complete Appropriation will be included at the end of the minutes.*

*Local resident Diane Jones thanked Mr. Rear for his efforts in making the Commissioner meetings more transparent, and having the videos being available, for those that aren't able to attend the meetings. Ms. Jones thanked him and that they appreciate all of his efforts and what he has accomplished. Mr. Claypool stated that those efforts would not happen without the support of the Board.*

NOACA

*Mr. Claypool brought up the request from NOACA to change the by-laws and that the Board needs to discuss and make a decision because unless all five counties agree the ratification cannot happen, and we really need to provide an answer. Mr. Claypool brought up the math equation that was included in the by-law changes, adding that there is a lot of waste through the organization, noting that there are funds available to be used for safety and NOACA is trying to figure out a way to have the requirements for the allocation so that they can access those funds. Chardon City Mayor Nancy McArthur clarified that the dollars that come in to Chardon were for an alternate form of transportation, and they cannot change those allocations unless it comes from the legislators. Mr. Claypool disagreed adding that allocation dollars set aside for alternative forms of transportation could be used for buggy lanes, to which Ms. McArthur stated that they could not be used for roads, and that projects needed to be ready to go in order to receive funding. Mr. Claypool stated that those dollars would be beneficial for safety improvements in Middlefield. Mr. Rear stated that it is not just bike paths, it's intermodal, his problem is that they have \$7 million in CMAQ funds that can only be used for earmarked projects, and they go out and borrow funds to fix a bridge. Mr. Claypool stated that people using bicycle trails should be contributing to bicycle trails, instead of using dollars that should go into fixing and repairing roads. Discussion continued in regards to projects that these dollars could be used for, and how the NOACA organization is handling things and what they want to do.*
