COMMISSIONERS' OFFICE – COMPMANAGEMENT, INCORPORATED – GROUP RETRO PROGRAM

Human Resources Specialist Kathy Hostutler introduced Todd Kesperich, Assistant Vice President of Client services at CompManagement, Incorporated and they are going to discuss Geauga County's participation in the Group Retro Program. Mr. Kesperich presented the Board with an Executive Summary Report for Workers' Compensation and a Workers' Compensation Group Retro Performance Update. The Executive Summary outlines the performance of the County itself, expressing gratitude for the way the County takes ownership and handles the program. Over the years the County has put measures into place to increase success, and when injuries do occur these measures can help mitigate losses. The Performance Update outlines the current rating program that previously was a look back and since 2010 we have been in the Group Retrospective program, which is based on grouping common employers together and determining success for the future based on activity. Geauga County was an initial participant in that program and has done very well, noting that to date the County has received \$853,580.00 in refunds since 2010. These refunds are done with a hold back of 20% the first year, and 10% the second and in the final year of assessment they will make everyone whole. There was a payout in 2010 and 2011 and for 2012 there was an evaluation and those funds will be released this year. Each year is stacked on top of each other and the 2015 group includes some incurred losses, and the evaluation will be an assessment for the whole group and as projected on the final assessment should yield about a 27% refund. The losses will be absorbed in the 2013 and 2014 evaluations and should still yield a refund, just not as much as we have seen in the past. Ms. Hostutler stated that there were some catastrophic claims last year and were things that could not really have been prevented, and added that she feels we are in a good place in being with this program. Mr. Kesperich stated that an important factor is that this happened with a larger pool and that with the number of consecutive years the County will be ok going forward. Ms. Hostutler stated that the safety efforts of Ms. Burhenne and the Directors makes a huge impact, and combined with claims management with CompManagement, it works as a winning team.

Mr. Claypool inquired about the changes that have recently been made to the Workers Compensation program and wanted to know the impact on the program. Mr. Kesperich stated that employers paid their premiums in arrears and to our knowledge it was the only program known that "used it now pay for it later", and the Bureau has a surplus of funds that allowed them to bring the program to prospective. The challenge now is to base things off estimated payroll instead of actual, which fortunately is easier to do since the County's don't fluctuate too much. CompManagement has done a good job in working closely with the Bureau to educate the clients.

Ms. Hostutler noted that the county will be receiving a refund from PWRE premiums that will be around \$5,000.00, adding that the county didn't pay in too much to the program so our refund is small compared to other counties.

Motion: by Commissioner Rear, seconded by Commissioner Spidalieri to approve and authorize the President of the Board to execute the 2017 County Commissioners Association of Ohio Workers' Compensation Group Retrospective Rating Plan Agreement and the Bureau of Worker's Compensation Employer Statement between the Geauga County Board of Commissioners and the CCAO Service Corporation.

AUDITOR'S OFFICE – AGREEMENT – SUDSINA AND ASSOCIATES, LLC – FISCAL CONSULTING SERVICES

Mr. Lair explained that Sudsina and Associates will be providing consulting services in regards to the annual sale of debt for the Notes on the Communication System. Mr. Lair explained that we will be paying off \$1.3 million on our current debt and so the remaining \$2 million will need to be financed, adding that Sudsina will advise potential investors about our debt and get them interested in buying our debt from us and bidding competitively.

AUDITOR'S OFFICE – GEAUGA PARK DISTRICT – REQUEST TO ESTABLISH A K-9 DONATION FUND

The Auditor's Office on behalf of the Geauga Park District requested the Board authorize the Geauga County Auditor to establish an agency fund for the Geauga Park District to be known as the K-9 Donation Fund to allow for the proper accounting of revenues and expenses relating to monies donated for their K-9 program.

Mr. Lair stated that the State Auditor's Office requested the Auditor's Office send a request to establish this fund for donations to be accepted. Apparently this needs to originate from the Commissioner's Office even though the Park District budget is not in the Commissioners budget. Commissioner Rear inquired if the Park District had any K9 units, to which it was noted that yes, they now have two new members. Mr. Claypool inquired about the reason for the fund to be established and noted that no one from the Auditor's Office or the Park District was present. It was noted that the request had come in on Friday late and had been discussed as to the necessity of the Board's involvement and placed on the agenda. Additional information was received on Monday afternoon that included a letter from the Auditor of State requesting the fund be established. After brief discussion the Board agreed to table the motion until additional information could be obtained.

Motion: by Commissioner Claypool, seconded by Commissioner Spidalieri to table the request to establish a K-9 Donation Fund.

Public Hearing
June 28, 2016

Anne Rasic, MBA, Budget & Finance Administrator
Dave Lair, MBA, County Administrator

Commissioners' Journal
June 28, 2016

Mr. Lair explained that the County is on a calendar fiscal year, January – December and part of the budget cycle includes requesting the Departments’ input regarding their budget requests in March, based on guidelines of things not to exceed, specifying no salary increase, but authorizing a 12% increase for hospitalization expenses. Once submitted by the end of May, the tax budget is reviewed and created that is being presented today. Next week we will ask the Board to approve the tax budget to be submitted to the Auditor. Budget Hearings are held in September and October where the requests are discussed and then the Permanent Appropriation is adopted in December that includes specific requests based on what the budget can handle. After the first of the year after the carryover balance is known then supplemental appropriations to complete the year as we go into 2017.

The 21.22% County Portion of the average property owner’s property tax is allocated as follows:

Ms. Rasic noted that the Park District and the Health District are not included in the Commissioners’ budget. Mr. Lair noted that everything except the General Fund portion is voted on by the residents of the County.

Total 2017 Tax Budget - \$117.7M

General Fund Budget - \$32.0M

General Fund Requests - \$34.0M

5

Mr. Lair noted that the total tax budget of \$117.7 million includes all funds including the General Fund. We are focusing today on just the General Fund. Mr. Lair explained that there were \$34 million of requests against the General Fund, and \$2 million of those received were not included and they are \$773,000.00 in Equipment for the Board of Elections, \$89,000.00 in Equipment for the Sheriff, \$85,000.00 in other expenses for the Sheriff, and \$828,000.00 for the Maintenance Department that include \$405,000.00 in contract services, \$175,000.00 in salaries for two new hires, \$120,000.00 for jail maintenance and \$58,000.00 in equipment.

2017 Revenues	<u>\$27.5M</u>
Total Resources	\$32.0M

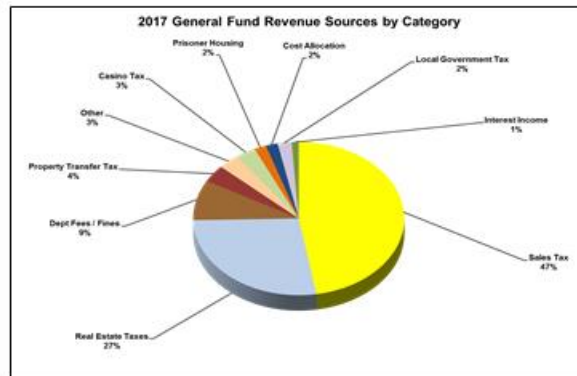

**Actual unencumbered carryover has ranged from \$3.7M to \$7.3M in the last 5 years
Increases to carryover funds are accomplished through a combination of spending less than current appropriations and exceeding revenue estimates*

6

Ms. Rasic pointed out that the \$4.5 million in carryover is a conservative estimate based upon the actual carryover balances from the last five years.

Geauga County Government 2017 Tax Budget

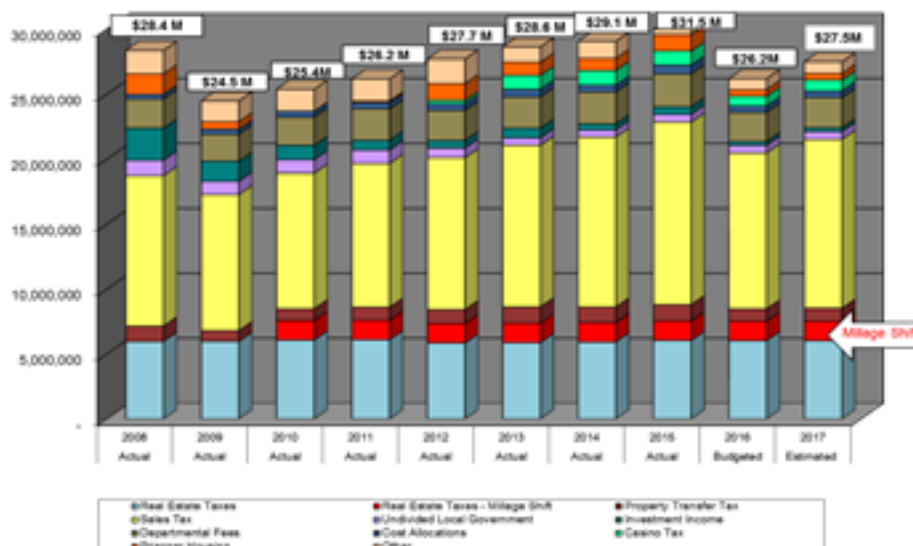

This chart shows the breakdown of the \$27.5 million in revenue that is estimated for next year, noting that more than half is coming from the Sales Tax which is estimated at \$13million for 2017. Another quarter of the estimated revenue is from Real Estate Taxes, and several other slices include department fees and fines for services. Ms. Rasic noted that the Property Transfer Tax is from fees paid when a property deed transfers, and the Casino Tax is on the gross earnings of the casino and 51% of the tax is set aside for counties and is allocated based upon population. We are estimating \$850,000.00 for 2017. The proceeds from prisoner housing is going to remain at an estimate of \$500,000.00 compared to the \$750,000.00 estimated by the Sheriff Department because it is not a stable revenue source.

Ms. Rasic stated that the Local Government tax is now the smallest portion that comes from the State, which was replaced by the Casino Tax, but that is not a stable revenue source. Mr. Lair noted that the interest income due to current interest rates has shrunk down to a very small slice of the pie. Other income sources include several small sources of revenue.

General Fund Revenue Sources by Major Categories
2008-2017

Mr. Lair explained that this slide is important to understand, citing that 2008 was strong compared to the economic crash that started in 2009. Mr. Lair noted that proceeds from prisoner housing and sales tax were good, and then at the end of 2008 revenues dropped considerably. In 2009 the County had to de-certify revenue due to the impact of the economy. In 2010 we started putting the \$1.5 million back into the General Fund from the debt retirement and caused a millage shift. In 2015 we had a very good year for revenue, but you have to

Commissioners' Journal
June 28, 2016

remove the \$1.5 million in order to do an accurate comparison with 2008. The new normal in local government has been flat revenue, so we need to be frugal and smarter on how we spend money. In 2016 and 2017 you can see the revenues are reduced, we are budgeting in a conservative way, targeting \$26.2 million for 2016 and this will allow us to have a larger carryover for 2017 and we are forecasting for an increase in revenues. Mr. Lair explained why it is so important to have a carryover balance, noting that these are the funds that the county uses to get through the first few months of the year until revenues for the New Year begin to come into the bank. By budgeting a conservative estimate for the carryover, if there is more actually received than projected than that can be used to fund additional requests that may not have been included, using salary increases as an example.

Total Resources	\$ 36.3M	\$ 38.3M	\$ 33.5M	\$ 32.0M
Increase to CY Revenue				\$ 1.3M

9

Ms. Rasic explained that overview of actual resources, noting that actual carryover balances has averaged \$7.1 million the last three years, and so being conservative we have budgeted \$4.5 million.

10

The revenue estimate for 2017 is \$1.3 million higher than 2016 and that is we have increased the sales tax revenue to \$13 million and with an estimate of \$850,000.00 in casino tax revenues and increases in the fees and fines charged by the departments will contribute to this increase.

12

Reduction in equipment from 2016 to 2017 is about \$199,000.00 and the remaining difference is primarily due to \$50,000.00 in Veterans Services reductions, which results from a temporary increase in their requested budget from 2016 that was scaled back in 2017.

BUILDING DEPARTMENT - APPOINT MEMBERS TO RESIDENTIAL APPEALS BOARD

Director Mike Mihalisin explained that years ago counties used to be able to have their own building codes and utilized an Appeals Board to grant variances for certain circumstances. Since that time we were made to adhere to the State Building Codes which are International. It was noted that these are minimum standards, that you can exceed, citing snow load in our area. Recently Mr. Mihalisin learned that the residential appeal board can handle cases for flood plain issues, and he would like to resurrect the Appeals Board. Mr. Mihalisin stated that they may only meet once or twice, but would like to have it in place in case it is needed again. One
