25th Anniversary
of the Geauga County Revolving Loan Fund*

GEAUGA COUNTY

REVOLVING LOAN FUND

The Revolving Loan Fund was established in 1983, through a joint effort of the Geauga County Board of Commissioners and the Community Improvement Corporation of Geauga County. As of 2008, 100 loans have been made, the smallest being \$3,000.000 and the largest \$500,000.00. The RLF has loaned to a variety of businesses, including:

- Barber Shop
- Diamond Cutter
- Restaurants
- Hardware Store
- Landscapers
- Auto parts manufacturer
- Various plastics companies
- Cheese Maker
- Cabinet Maker
- Veterinary Clinic
- Medical Facility
- Livestock
- Manufacturers

The maximum loan is dependent upon the amount of RLF dollars available. Loans may be prepaid without penalty.

Loans must be secured by a mortgage, and/or a purchase money security interest, a participation agreement, a security agreement, and personal guarantee.

The Geauga County Revolving Loan Fund is a program created to provide gap financing to qualified businesses, and is administered by the Geauga County Department of Community & Economic Development.

The Revolving Loan Fund provides direct loans at below prime interest rates on a portion of a project to enable companies to acquire conventional financing or other financing on the remainder of the project.

The RLF Program will consider all projects of merit which create long-term, permanent jobs and can be used for new businesses and expansions. The loan term cannot exceed terms of the primary lending source and can be used in combination with the SBA 504 program and the State "166" program to fill the gap created by insufficient owner equity and private financing.

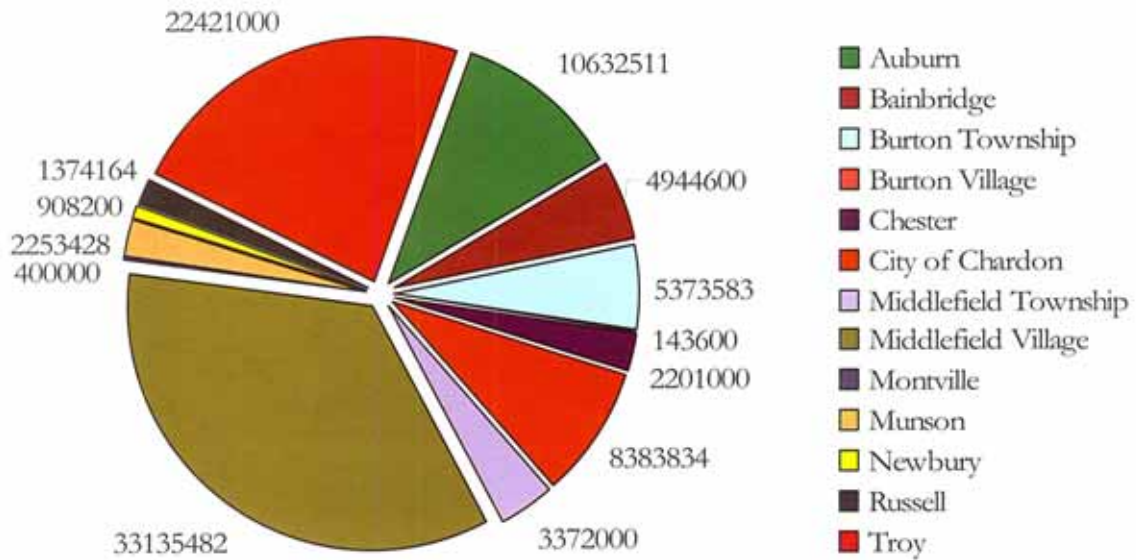

A fee of \$350.00 must be submitted with each application.

MIDDLEFIELD ORIGINAL CHEESE CO-OP

Production and sales of cheese/Retail store
 Middlefield Township

In 1992, in order to ensure a market for can milk from 200 mostly Amish farms in Northeast Ohio, it became necessary to build a new cheese house and the site on Kinsman Road in Middlefield was purchased. In 1993, construction began. The new cheese house started receiving milk January 1, 1994. The first cheese was made in February, and the retail store opened in mid-March.

The facility is equipped to handle up to 150,000 lbs. of milk a day, producing about 15,000 lbs. of cheese. To construct this building, directors had to work with at least 11 different agencies or departments, including the Geauga County Commissioners, who provided funding through the Geauga County Revolving Fund.

Middlefield Original Cheese Co-op is the sole Amish business to receive a loan from the Geauga County Revolving Loan Fund.

GEAUGA COUNTY REVOLVING LOAN FUND

25TH ANNIVERSARY

1983-2008

"The Geauga County Revolving Loan Fund Program has been instrumental in helping the Pattie Group grow over the past 40 years. The Revolving Loan staff was fantastic—always there to assist us, which made it a painless process. I think company owners may shy away from using the program for fear that it is too complicated and cumbersome; quite the contrary. Their staff is so well trained that they make the program convenient and a pleasure to use. It has been wonderful working with the County through this program and the many other programs they provide."

Steve Pattie
CEO
The Pattie Group, Inc.

"I think company owners may shy away from using the program for fear that it is too complicated and cumbersome.

Quite the contrary! "

- Steve Pattie

"Great Lakes Cheese utilized The Geauga County Revolving Loan Fund Program in the construction of our new facility in Troy Township. Applying was simple, and extremely user friendly."

Russ Mullins
Vice President of Finance
Great Lakes Cheese Co.

"The Geauga County RLF is a great tool to retain growing businesses and attract new ones to the county. We recommend all our growing business clients use this program. Especially appreciated is the speed of the decisions by the county."
